

Currently seeking a Production Shift Supervisor with paper manufacturing experience.

The Supervisor has primary responsibility for managing safety, reliability, cost, quality, productivity, and employee engagement. Responsibility for three paper machines, warehouse and maintenance functions-- working on a rolling 24/7 shift rotation.

BS Degree preferred. 8+ years industrial paper manufacturing and converting experience required.

Strong Mechanical Aptitude; Demonstrated people management and motivational skills; Experience/familiarity in a Union environment; organizational and goal setting skills; Strong team building capability.

Help achieve annual Safety Goal; provide a safe work place within your area of responsibility

Help achieve annual Quality Goals; produce a first quality product that meets or exceeds customer needs and specs.

Work with Area Supervisors to maintain open communication; ensure that hourly employees receive the required training.

Well established company in New Jersey offering long term career stability, and great benefits!

If you know someone in the New Jersey area and can help, please contact me at this email address. *Confidentiality is the cornerstone of my business.*

Sincerely,

Jane
